## WHAT FUN WE ARE HAVING!!

Summer should be filled with adventures, laughing and belonging and that is exactly how we are filling our days here at Circle of Friends. Our volunteer mentors, board members & kids have been filling their days with new adventures, plenty of laughter and a growing sense of belonging.

At the end of the day, your feet should be dirty, your hair messy and your eyes sparkling!

Summer started off with a hike to Three Fingered Jack, lead by Jeff Smith one of our wonderful mentors and Kellie Scholl our Youth Program Coordinator.

Kids are still talking about the art project Victoria Boucher facilitated painting rocks and hiding them throughout town. Carly Garzon also facilitated an art project making martian masks for our out of this world kids. This went along perfectly with our Summer Reading Program "A Universe of Stories".

### SUMMER CAMPS

A HUGE thank you to our loyal donors that made it possible to provide the opportunity of attending sport & overnight camps to our kids this summer

Two avid fishermen & board members, Kent Neff and Craig Longfield, made several trips to Three Creeks Lake with poles, bait, boats and car loads of eager learners. Each trip they returned to the clubhouse with happy kids, fish and adults ready for a nap!

Carolyn Gabrielson, also a long time board member and supporter of the work of Circle of Friends, hosted our Annual Pool Party at Black Butte Ranch. A trip that our mentors and kids look forward to every summer.
